"Be the change that you want to see in the world."

Experience

KoineArth
Bangalore

SR. SOFTWARE ENGINEER
April, 2021 - Present

- Front-End Lead for marketsN.
- Front-End Lead for ngageN.
- Leading the team of 6 Front-End Developers including me.
- Made a great impact in several areas like code quality, review process for the code and user experience by improving the Pull Request Review Process and enforcing some guidelines for code contribution.

Koinearth
Bangalore

FRONT END ENGINEER
August, 2019 - March, 2021

- Worked on marketsN.
- We were the team of only two developers handling the whole product for Front-End. After that I worked with so many developers and we got a couple of new clients too.

CognitiveClouds
Bangalore

SOFTWARE ENGINEER
Jun. 2018 - July, 2019

- Worked on real time projects using technologies like Angular and React.js
- Learned how to collaborate efficiently in a team of motivated and dedicated developers/engineers.

The Sense Infinity
Bangalore

FRONT END DEVELOPER (INTERN)
Jan. 2018 - May. 2018

- Implemented a simple desktop application using Electron platform using React.js and Semantic-UI-React.
- Implemented email templates for the products Ballyhoo and Staple of the Project Sense Infinity
- Implemented a e-food commerce website using React.js(Javascript) and Laravel(PHP).
- Implemented Search Engine Optimization(SEO) for the Ballyhoo Web application.
- API integration by handling the data with the help of React and Redux
- Improved functionality and performance of the website and worked on Electron Desktop Application Platform.

Projects

prs-merged-since
React.js, Material-UI

MAINTAINER
August 2021

- Link to the Project
- This project was just an experiment to get the list of the merged pull requests of public or private github repositories on the basis of the branches or tags.
- Since I needed a list of the PRs as changelog, I tried to do the same.

github-search
React.js, Redux and Semantic-UI

MAINTAINER
August 2020

- Link to the Project
- Search github repositories in react.js
- Sort the searched results and see the details of the selected repository

tictactoe
React.js, HTML5 and CSS3

MAINTAINER
August 2020

- Link to the Project
- Tictactoe game for practicing react.js

Notes-Webapp   *React.js, HTML5 and CSS3*

Developer   *Jul. 2017*

- Link to the Project
- This is a small project which is developed for taking notes. Mainly it is a web application in which we can take notes as many as we want to.
- This project was developed mainly to learn basics of React.js and understanding the flow of the mechanism of React.js. It is a very handy web application in which you can edit, add and delete any notes.
